

PADDOCK TO PROCESSOR GRAIN QUALITY WORKSHOP

"How farming practice affects your beer and bread"

A two-day technical workshop for agronomists, advisors and consultants on maximising grain quality through agronomy and on-farm storage, and understanding markets and quality regulations.

Locations:

ADELAIDE

Thursday 22 July and Friday 23 July 2010

- When: 8.30am to 5.30pm
- Where: Urrbrae House, Waite Research Institute

BALLARAT

Thursday 5 August and Friday 6 August 2010

- When: 8.30am to 5.30pm
- Where: Mercure Ballarat Hotel & Convention Centre, 613 Main Road Ballarat

Topics include:

- The role advisors play in helping growers manage quality
- Variety performance and selection
- Achieving maximum grain quality in the paddock and in storage
- How processors measure grain quality and its importance to their end product
- How genetic and environmental factors affect grain quality
- What animal industries want and how growers can deliver
- How and why receival standards are set at current levels
- Markets for Australian wheat and barley

Keynote Presenters:

- Gerard McMullen, grain quality consultant
- Peter Botta, grains storage specialist
- Dr John Black, feed grain quality expert
- Dr Steve Jefferies, wheat breeding for quality
- Associate Professor Jason Eglinton, barley breeding for quality

Field trip includes:

1. Adelaide workshop participants will visit Viterra Malting at Outer Harbor, Coopers Brewery and San Remo
2. Ballarat workshop participants will visit Viterra Malting and Allied Mills and grain testing with Agrifood Technologies

COST: \$150, includes field trip, hands-on interactive sessions, meals and workshop manual
