

Swinburne University of Technology, Melbourne
presents a seminar on
ICT in 2008: Skill Shortage or Oversupply?

Swinburne invites you to an ICT seminar giving insight into the growing employment options for graduates, emerging technologies and future student study trends. The seminar is also a must for interested IT teachers and career advisers to learn more and exchange ideas on the fast changing ICT industry, its parameters and future expectations.

Introduced by Professor Doug Grant, Dean, Faculty of Information and Communication Technologies, the symposium will feature presentations from:

- * Australian Computer Society
- * Multimedia Victoria
- * ICT industry representatives will give insights into opportunities in the Private and Public Sectors

Who Should Attend

VCE Careers Advisers
IT Teachers, (Year 10, 11 or 12)

When

Wednesday August 24th 2005
2.00 – 4.15PM

Format

ICT in 2008: Skill Shortage or Oversupply?
2.00 – 3.00
A Panel comprising representatives from the Australian Computer Society, Multimedia Victoria, Industry and Swinburne will discuss their views of employment and the future of the ICT industry with opportunities for questions and feedback.

Afternoon Tea

Choose one of the following three information sessions:

Session 1: Women in ICT
3.30 – 4.15
Why is it that the number of women choosing to study ICT seems to be shrinking and how do we get young women interested in the expanding career opportunities?

Session 2: The Role of Network Security
3.30 – 4.15
Importance of Network curriculum in VCE. Session will overview the high demand for ICT graduates with security skills in virus protection and network management.

Session 3: Swinburne ICT Courses
3.30 – 4.15
An overview of Swinburne's new ICT courses will highlight study areas in software development, business information systems, telecommunications and multimedia.

4.15 - Close
