

## Evaluation of the Standards Survey

AITSL in partnership with the University of Melbourne is conducting a three year process and impact evaluation of the implementation of the Australian Professional Standards for Teachers. The evaluation aims to determine the *usefulness, effectiveness of implementation* and *impact* of the Standards on improving teacher quality.

### Survey purpose

To collect baseline data on how the Teacher Standards are being used and implemented at schools/educational facilities and higher education institutions.

### Focus

The survey will gather data on individuals':

- knowledge and awareness of the Standards
- attitudes towards the Standards
- use of the Standards
- perceived impact of the Standards in Australian schools/educational facilities.

### Who

We are inviting all teachers, school leaders, teacher educators and pre service teachers to participate in the survey.

### Time

Approximately 15 minutes to complete

### When

7 to 25 October 2013

Teachers

School Leaders

Teacher Educators

Pre Service Teachers

Have your say  
and shape  
education  
reform!
