

VITTA presents an exciting opportunity for teachers of all year levels, across all domains...

# A Contemporary Learning Series

**VITTA**  
The Victorian  
Information Technology  
Teachers Association Inc.  
supporting ICT educators

## Mobile Learning with No Limits

*Attention:*  
PD, eLearning  
and Curriculum  
Coordinators

### A one day conference on contemporary digital learning and teaching with mobile devices

#### When is it?

Friday 3rd June from 8:30 am – 3:30 pm

#### Where is it?

Ringwood Secondary College, Bedford Road, Ringwood, Melways Reference: Map 49 K8.

- relevant for all teachers of all year levels and across all domains
- learn about using 1:1 computers and mobile devices effectively
- improve your teaching with learning technologies
- get on-board with implementing the Australian curriculum

Have you heard the latest about 1:1 devices and how teachers are using them effectively in the classroom?

Do you want to know how 1:1 is relevant to the new Australian Curriculum? Then don't miss this exciting conference! VITTA, in collaboration with Ringwood Secondary College, presents the **Contemporary Learning Series** beginning with a one day conference on Mobile Learning with No Limits.

Join us on **Friday June 3** for a day of practical hands-on experience with 1:1 devices and the support of leading educators.

#### Who is this for?

This conference is designed for all teachers, both Primary and Secondary, and of all subjects and specialist ICT.

#### What will you come away with?

The Conference sessions on the Australian curriculum, research into mobile learning, classroom management and pedagogy, differentiated learning, the iPad trial and many others show how the future is being transformed. "One-to-one learning is based on the belief that people learn differently as a result of owning personal handheld computing devices (Chan et al., 2006).

The attributes of these devices, including portability, connectivity and context sensitivity combined with sound pedagogical ideas can transform learning." from Educational Technology & Society, 13 (4), 1-3.

At the very least you will come away with ideas, resources, meeting great educators involved in the field of mobile learning and most of all, inspiration you can take straight to the classroom.

#### What is included?

- Internet connection
- Morning tea and lunch is provided.

#### What do I need to bring?

Please bring your laptop or other mobile device such as iPad or Tablet.

#### How do I register?

Book online at <http://www.vitta.org.au/events/event/a-contemporary-learning-series-mobile-learning-with-no-limits>

See overleaf for program details →

## Mobile Learning with No Limits

The conference will begin with a keynote address by 2010 Outstanding School Leadership Award Winner, Michael Phillips, Principal of Ringwood Secondary College.

### Program includes sessions on:

- The Australian Curriculum
- iPads in the classroom
- Podcasting
- Solutions to mobile learning challenges
- Mobile apps for language learning
- The mobile revolution
- Apps and Data
- Mobile Learning: the latest research on how to make a difference
- 1:1 or many :1?
- Take your learning with you
- iPad trial – what have we found so far?
- So you think you can't use flash on your iPad?
- Cybersafety and mobile learning
- Differentiated learning opportunities with mobile devices
- Learn by connecting
- Classroom management in a 1:1 environment
- Getting feedback on mobile devices: clickers, smart phone & google forms

### → More in the Contemporary Learning Series:

VITTA will present two more events in the series this year at Ringwood Secondary College. Watch the VITTA website for details.

### Keynote Michael Phillips

Michael is currently the principal at Ringwood Secondary College, a position he has held since 1997.

In this role he has encouraged the innovative use of ICT as a vehicle for transforming teacher practice, student engagement and

student learning. Parallel to the college's involvement as a trial school for the Victorian DEECD Ultranet in 2007 was the introduction of a 1:1 laptop program for all students across years 9 to 11. In 2011 the college has introduced iPads without textbooks for all Year 7 students.

Michael has had the opportunity to present at conferences both in Australia and overseas.

Recent achievements have included being a finalist for the DEECD Excellence in Leadership Award in 2009 and the recipient of its Outstanding School Leader Award in 2010. He is also a Victorian fellow of ACEL.

Beyond his own school, Michael has been the Project leader for the Maroondah Regeneration Project.
