

iAwards Tech Showcase 2015

Wednesday 26 August

Are you curious about how technology gives us the capability to think beyond what is currently possible?

The Australian Information Industry Association (AIIA) and Digital Careers invite you and your students to this year's Tech Showcase.

Explore how the impact of robotics and 3D printing are fueling innovation and changing how we do things. It's not just multi-nationals who are breaking new ground with innovations – but universities and students as well as start-ups.

The Tech Showcase will enable students to embrace technology by seeing it for themselves – visit, embrace it and play.

Hosted sessions will allow students to gain a deeper insight into new innovations. Visit the iAwards website to see who is exhibiting or like the iAwards Facebook page to keep up to date facebook.com/theiawards

Melbourne Convention & Exhibition Centre
Level 1, 1 Convention Centre Place,
South Wharf
Open: 10:00am-3:00pm
