

# Want to learn to program for the XBOX360? You can!

**How: 2 day intensive course**  
**When: 28,29th September (Term 3 school holidays)**  
**Where: Melbourne High School computer lab**

**Are you interested in game design? Are you looking to enter a career in the games industry? Would you like to learn how to write games for the XBOX360? This 2 day intensive course will show you how! The course is open to current Year 9-12 students and has strictly limited numbers. The course will run from 9.00am to 4.00pm—with printed tutorials, food and snacks included (BYO lunch)**

**Cost: \$200 per person—all inclusive**

## **What will you do during the course?**

- **Design and build simple to intermediate level games and learn how to run them on the XBOX360**
- **Learn about the programming language used to make games for the XBOX360**
- **Discover where to get great resources, software and help to develop your skills in games programming**
- **Learn how to share with other games enthusiasts to continue your games writing career**
