

In March 2015 at Sydney's Olympic Park the Melbourne RoboCats competed at the Australian FIRST® Robotics Competition (better known as the FRC). This was the first all-girl team outside of NSW to compete in the most sophisticated robotics tournament of its kind, and against some of the best teams in the world. In its rookie year, the RoboCats were honoured to receive the prestigious Judges' Award.

The team is now in the process of preparing for the 2016 FRC season (starting in January), and is keen to hear from any high school girls who might be interested in joining our team. No experience is necessary!! 😊
