

# Input/Output Devices Research Assignment

## Market Research

### Select:

- 1 x Input devices (keyboards, mouse x 2, joystick, scanner, microphone, touch screen...)
- 1 x Output Devices (printers, screens x 2, speakers...)

Pretend that you wish to buy both these items. Research the market place and identify both products. Cost is not really a limiting factor.

### Outline:

- Identify the make and model of the product.
- What is the cost of the product.
- Show a picture of the product
- Give 3 reasons why you chose this particular product.
